

**TRANSPORTATION OF LIVE ANIMALS - AVI****Remember:**

- do not disturb and/or approach animals;
- do not load the live animals in hold close to dangerous goods, antagonistic species, human remains and food;
- place containers with animals in direct contact with the walls of the hold and isolated from the floor
- do not place containers with animals above or below another load;
- check the conditions of the animals prior to loading/unloading;
- prevent any escape if container is not properly closed;
- verify the presence of the security plastic ties to seal the door and sides of the container;
- place the AVI containers on cart with tarpaulin;
- secure the AVI containers to the cart;
- do not place more load on the cart with the AVI container;
- keep outdistance between the AVI containers to ensure the ventilation of the animals.

**Please ensure this GSRec is prominently displayed within your workplace (Safety Corner)**
